EXPERIENCE

Helm Operations

Web Designer
Creative Team Lead

MAY 2013 TO PRESENT

Manage a large CSS library with Less/PostCSS, maintain a pattern library of UI components built with Fabricator, do some design in Sketch or in browser, and work with other team members to improve features.

Terapeak

Web Designer

JULY 2011 TO APRIL 2012

Lead redesign of marketing website, implementing in Drupal and custom framework across multi-lingual sites. Worked with the development team on the new version of the app with SASS/Compass and javascript.

Escape Compass

Lead Designer
Cofounder

DECEMBER 2010 TO PRESENT

A side project started with two friends to try to make finding things to do easier. Built in ruby on rails, I worked on everything from the brand, to the design and implementing much of it in the codebase.

ENXSuite

Web Designer

JUNE 2009 TO JUNE 2011

Lead designer on SaaS application: workflow, information architecture, wireframes, CSS and help implement with developers. Redesigned company website twice. Conducted usability testing.

"works with computers."
